

Sir,

Thank you for the opportunity to apply for the position of Software Engineer (Frontend) at Supermart Express Service. After reviewing your job description, it's clear that you're looking for a candidate who is proficient with frontend technology and provide SEO solutions. Given these requirements, I am pleased to inform that I have the necessary skills to fit into this position.

I am a detail-oriented full stack developer with experience with React, next.js (a react framework for server side rendering and search engine optimization) and some familiarity with Vue. My deep understanding of Javascript has also helped me master node.js as a backend platform. Overall, I have consistently demonstrated problem-solving, creative thinking and abilities to learn new technology when needed in every aspect of software development and I invite you to review my resume and a few projects on <https://bank.sh3riff.me> and <https://www.sh3riff.me>.

I hope you will agree that I am the type of competent and competitive candidate you are looking for. I look forward to elaborating on how my specific skills and abilities will benefit your organization.

Thank you for your consideration, and I look forward to hearing from you soon.

Yours Sincerely,

Olowolagba Sheriff.
